INDEX

ACID response and basal secretion of stomach, 318.

Adrenal mechanism for mobilizing sugar in hypoglycemia, 46.

Adrenalin chloride, effect of, on basal metabolism, 271.

——, effect of, on patellar tendon reflex, 446.

Afferent nerve impulses from muscular receptors, 283.

—— —— stimulation, effect of, on epinephrin output, 605.

ALBRITTON, E. C. The effect of frequent sampling on the form of blood sugar curves, 548.

Alkaloids, central nervous excitation by, in insects, 41.

ALLEN, E. and E. A. DOISY. The induction of a sexually mature condition in immature females by injection of the ovarian follicular hormone, 577.

ALVAREZ, W. C. A non-polarizable electrode and clamp designed particularly for gastro-intestinal work, 249.

——. Bayliss and Starling's law of the intestine, or, the myenteric reflex, 229.

—— and L. J. MAHONEY. Peristaltic rush as depicted in the electroenterogram, 226.

—— —— ——. Peristaltic rush in the rabbit, 211.

AMBERSON. W. R. Secondary excitation in the retina, 354.

Anesthetics, effect of, on catalase and oxidation in Paramecium, 304.

ARONOVITCH, B. See LEE and ARONOVITCH, 92.

Asphyxia, influence of, on vestibular nystagmus, 160.

BARBOUR, H. G. and W. F. HAMILTON. Blood specific gravity: its significance and a new method for its determination, 654.

BARKUS, O. On the rate of elimination of inorganic salts from the blood stream, 35.

Basal metabolism, effect of ingested adrenalin chloride on, 271.

Bayliss and Starling's law of the intestine, 229.

BELL, M. See BLATHERWICK, LONG, BELL, MAXWELL and HILL, 155.

Bile pigment formation after extirpation of liver, 393.

BLATHERWICK, N. R., M. L. LONG, M. BELL, L. C. MAXWELL and E. HILL. Some factors influencing the assay of insulin, 155.

BLISS, S. W. See CANNON, MCIVER and BLISS, 46.

Blood diastases, 125, 334.

——, effect of insulin on, 142.

——, plasma and corpuscular volumes in, 531.

——, specific gravity, 654.

—— stream, elimination of inorganic salts from, 35.

—— sugar and gastric hunger contractions, 107.

—— —— curves, effect of sampling on form of, 548.

—— —— during action of insulin, 555.

—— —— of sheep, effect of thyroxin on, 498.

BODANSKY, A. Effect of thyroxin upon the blood sugar of normal and thyroidectomized sheep, 498.

Body weight, thyroid weight and, correlation between, 510.

BOLLMAN, J. L., F. C. MANN and T. B. MAGATH. Studies on the physiology of the liver. VIII. Effect of total removal of the liver on the formation of urea, 371.

——. See MANN, BOLLMAN and MAGATH, 393.

BOURQUIN, H. Factors influencing the excretion of urea. I. Rate of urine excretion and caffeine, 1.

Brandt, P. M. See Miller, Brandt and Jones, 169.

Bulatao, E. and A. J. Carlson. Contributions to the physiology of the stomach. Influence of experimental changes in blood sugar level on gastric hunger contractions, 107.

Burge, W. E. The effect of different anesthetics on the catalase content and oxygen consumption of unicellular organisms, 304.

Byrne, J. Paradoxical cardiac inhibition following lesions of the efferent vagal paths, 132.

Caffeine, rate of urine excretion and, 1.

Campbell, C. J. See Forbes, Campbell and Williams, 283.

Cannon, W. B., M. A. McIver and S. W. Bliss. Studies on the conditions of activity in endocrine glands. XIII. A sympathetic and adrenal mechanism for mobilizing sugar in hypoglycemia, 46.

Cardiac inhibition, paradoxical, following lesions of efferent vagal paths, 132.

Carlson, A. J. See Bulatao and Carlson, 107.

Catalase, effect of anesthetics on, in Paramecium, 304.

Cattell, McK. and P. G. Stiles. The place of fatigue in striated muscle: evidence for failure of excitation apart from contraction, 645.

Cattle, dairy, mineral metabolism in, 169.

Cell hypertrophy, interstitial, 589.

Central nervous excitation by alkaloids in insects, 41.

Chemical compounds, effect of, on tetany syndrome, 455.

Circulation during insulin hypoglycemia, 177.

Circulatory responses to exercise, 410.

Clark, J. H. A simple method of measuring the intensity of ultraviolet light with comparative results on a number of physiological reactions, 200.

Coagulation, heat, of protoplasm, 190.

Cohen, S. J. Studies in blood diastases:

I. Significance of the blood diastase in the normal animal, 125.

II. Are the blood diastases end products of metabolism, 334.

Colloid chemistry of protoplasm, 190.

Color phenomena, 337.

Corpuscular volumes, plasma and, in blood, 531.

Cotton seed meal injury, 78.

Cowgill, G. R. and H. J. Deuel, Jr. The comparative action of pancreatic secretin when injected into a systemic artery, systemic vein, and the portal circulation, 568.

Creatine, increased muscle tension and, 638.

Crozier, W. J. and C. L. Hubbs. Temperature effects in the hearts of a twinned embryo, 43.

—— and G. F. Pilz. Central nervous excitation by alkaloids in insects, 41.

Cysteine, cystine and, oxidation of, 518.

Cystine and cysteine, oxidation of, 518.

Decerebrate animals, young, reactions of, 254.

de Kleijn, A. See Kleitman and de Kleijn, 160.

Deuel, H. J., Jr. See Cowgill and Deuel, 568.

Diastolic heart tone, 410.

Dietary deficiency, ophthalmia as a symptom of, 543.

Doisy, E. A. See Allen and Doisy, 577.

Dragstedt, L. R., A. C. Sudan and K. Phillips. Studies on the pathogenesis of tetany. IV. The tetany of oestrus, pregnancy and lactation, 477.

Eddy, N. B. The action of preparations of the endocrine glands upon the work done by skeletal muscle, 432.

Edwards, D. J. and I. H. Page. Observations on the circulation during hypoglycemia from large doses of insulin, 177.

Electrode and clamp for gastro-intestinal work, 249.
Endocrine glands, conditions of activity in, 46.
—— preparations, effect of, on muscular work, 432.
——products, effects of, on Paramecium, 21.
Epinephrin output, effect of afferent nerve stimulation on, 605.

FAT absorption from mammalian stomach, 116.
Fatigue, place of, in striated muscle, 645.
——, studies in, 599.
"Fatigue toxin," Weichardt's supposed, 92, 101.
Food tests, biological, 67, 634.
FORBES, A., C. J. CAMPBELL and H. B. WILLIAMS. Electrical records of afferent nerve impulses from muscular receptors, 283.
FRANCIS, L. D. See MORGAN and FRANCIS, 67.

GASTRIC hunger contractions, blood sugar and, 107.
—— secretion and gastric acid response, 318.
Gastro-intestinal work, electrode and clamp for, 249.
GRUBER, C. M. Studies in fatigue. XV. Further studies on the staircase phenomenon in mammalian skeletal muscle, 599.

HAMILTON, W. F. See BARBOUR and HAMILTON, 654.
HAMMETT, F. S. Studies of the thyroid apparatus. XXVI. Correlation between thyroid weight and body weight, 510.
Heart rate, physiological maximum, 441.
—— rates of twins, 43.
Heat coagulation of protoplasm, 190.
—— regulation in rabbits, 307.
HEILBRUNN, L. V. The colloid chemistry of protoplasm. IV. The heat coagulation of protoplasm, 190.
Hemoglobin, effect of insulin on, 142.
Hemorrhages, repeated slight, oxygen consumption during, 465.
HEPBURN, J., H. K. LATCHFORD, N. A. MCCORMICK and J. J. R. MACLEOD. The sugar of arterial and venous blood during the action of insulin, 555.

CONTENTS

No. 1. June, 1924

Factors Influencing the Excretion of Urea. I. Rate of Urine Excretion and Caffeine. *Helen Bourquin* 1

Observations on Venous Pressure and Skin Blanching Pressure by a Modified Method. *H. L. White* 10

The Effects of Thyroid and Some Other Endocrine Products on Paramecium. *Lorande Loss Woodruff and W. W. Swingle* 21

On the Rate of Elimination of Inorganic Salts from the Blood Stream. *Otakar Barkus* 35

Central Nervous Excitation by Alkaloids in Insects. *W. J. Crozier and G. F. Pilz* 41

Temperature Effects in the Hearts of a Twinned Embryo. *W. J. Crozier and Carl L. Hubbs* 43

Studies on the Conditions of Activity in Endocrine Glands. XIII. A Sympathetic and Adrenal Mechanism for Mobilizing Sugar in Hypoglycemia. *W. B. Cannon, M. A. McIver and S. W. Bliss* 46

Biological Food Tests. VII. The Vitamin A and B Content of Fresh and Dehydrated Pumpkin. *Agnes Fay Morgan and Lillias D. Francis* 67

Further Studies on Cotton Seed Meal Injury. *Icie G. Macy and Julia P. Outhouse* 78

On Weichardt's Supposed "Fatigue Toxin." *Frederic S. Lee and B. Aronovitch* 92

Additional Data Concerning Weichardt's Supposed "Fatigue Toxin." *Frederic S. Lee* 101

Contributions to the Physiology of the Stomach. Influence of Experimental Changes in Blood Sugar Level on Gastric Hunger Contraction. *E. Bulatao and A. J. Carlson* 107

The Question of Fat Absorption from the Mammalian Stomach. *Takeo Inouye* 116

Studies in Blood Diastases. I. Significance of the Blood Diastase in the Normal Animal. *Seymour J. Cohen* 125

Paradoxical Cardiac Inhibition Following Lesions of the Efferent Vagal Paths. *Joseph Byrne* 132

The Effect of Insulin on Cold-Blooded Vertebrates Kept at Different Temperatures. *J. M. D. Olmsted* 137

The Effect of Insulin on the Blood. I. Changes in Oxygen Saturation, Percentage Hemoglobin and Oxygen Capacity. *J. M. D. Olmsted and A. C. Taylor* 142

Some Factors Influencing the Assay of Insulin. *N. R. Blatherwick, M. Louisa Long, Marion Bell, L. C. Maxwell and Elsie Hill* 155

The Influence of Asphyxia on Vestibular Nystagmus and an Attempt to Localize the Seat of this Influence in the Reflex Arc. *N. Kleitman and A. de Kleijn* 160

Mineral Metabolism Studies with Dairy Cattle. *H. G. Miller, P. M. Brandt and R. C. Jones* 169
Observations on the Circulation During Hypoglycemia from Large Doses of Insulin. *D. J. Edwards and Irvine H. Page* 177
The Colloid Chemistry of Protoplasm. IV. The Heat Coagulation of Protoplasm. *L. V. Heilbrunn* 190
A Simple Method of Measuring the Intensity of Ultraviolet Light with Comparative Results on a Number of Physiological Reactions. *Janet H. Clark* 200

No. 2. July, 1924

Peristaltic Rush in the Rabbit. *Walter C. Alvarez and Lucille J. Mahoney* .. 211
Peristaltic Rush as Depicted in the Electroenterogram. *Walter C. Alvarez and Lucille J. Mahoney* 226
Bayliss and Starling's Law of the Intestine, or, the Myenteric Reflex. *Walter C. Alvarez* 229
A Non-Polarizable Electrode and Clamp Designed Particularly for Gastro-intestinal Work. *Walter C. Alvarez* 249
A Physiological Study of the Reactions of Young Decerebrate Animals. *Orthello R. Langworthy* 254
Reactions of Intestinal Segments to Mechanical Stimulation. *R. G. Hoskins and Edgar S. Hunter* 265
The Effect of Ingested Adrenalin Chloride on Basal Metabolism. *F. A. Hitchcock* 271
Studies on the Locomotion of Leucocytes. III. The Rate of Locomotion of Human Lymphocytes in Vitro. *Morton McCutcheon* 279
Electrical Records of Afferent Nerve Impulses from Muscular Receptors. *A. Forbes, C. J. Campbell and H. B. Williams* 283
The Effect of Different Anesthetics on the Catalase Content and Oxygen Consumption of Unicellular Organisms. *W. E. Burge* 304
The Peripheral Water Loss in Rabbits as a Factor in Heat Regulation. *Robert W. Keeton* 307
On the Relationship Between the Gastric Acid Response and the Basal Secretion of the Stomach. *Robert K. S. Lim* 318
Studies in Blood Diastases. II. Are the Blood Diastases End Products of Metabolism? *Seymour J. Cohen* 334
Color Phenomena Caused by Intermittent Stimulation with White Light. *G. N. Stewart* 337
Secondary Excitation in the Retina. *William R. Amberson* 354
Studies of the Physiology of the Liver. VIII. Effect of Total Removal of the Liver on the Formation of Urea. *Jesse L. Bollman, Frank C. Mann and Thomas B. Magath* 371
Studies on the Physiology of the Liver. IX. The Formation of Bile Pigment After Total Removal of the Liver. *Frank C. Mann, Jesse L. Bollman and Thomas B. Magath* 393
Circulatory Responses to Exercise in Man and their Bearings on the Question of Diastolic Heart Tone. *H. L. White* 410
The Action of Preparations of the Endocrine Glands upon the Work Done by Skeletal Muscle. *Nathan B. Eddy* 432
The Physiological Maximum Rate of the Heart. *Joseph Tulgan* 441
The Effect of Adrenalin upon the Patellar Tendon Reflex. *W. W. Tuttle* 446

No. 3. August, 1924

The Effect of Chemical Compounds on the Production of the Tetany Syndrome. *W. W. Swingle and J. S. Nicholas* 455
Oxygen Consumption During Repeated Slight Hemorrhages. *Benjamin H. Schlomovitz, Ethel Ronzone and H. H. Schlomovitz* 465
Studies on the Pathogenesis of Tetany. IV. The Tetany of Oestrus, Pregnancy and Lactation. *Lester R. Dragstedt, A. C. Sudan and Kenneth Phillips* 477
Effect of Thyroxin upon the Blood Sugar of Normal and Thyroidectomized Sheep. *Aaron Bodansky* 498
Studies of the Thyroid Apparatus. XXVI. Correlation Between Thyroid Weight and Body Weight. *Frederick S. Hammett* 510
